Kerem KAPLAN

Cloud Engineer at WeDo Technology
Istanbul, Türkiye

Summary

Cloud Engineer working across cloud operations and DevOps practices, focused on building reliable, secure, and scalable environments. I also manage the platform and infrastructure side of data workloads—especially around Microsoft Fabric and DWH ecosystems—covering cloud foundations, access, automation, and operational readiness.

Beyond delivery, I help manage partnership processes with major cloud providers, including Microsoft Azure and AWS.

Experience

WeDo Technology
